Manufacturer Sioen Ballistics

DESCRIPTION

This CE-approved protective panel provides effective, NIJ 0101.04 level II (9x19mm) + stab protection for the wearer of a backpack or bag.

The panel is designed to fit discreetly into the inner pocket of most backpacks and laptop bags.

You can replace the original foam panel in your backpack or bag with this protective panel, which also serves excellently as a seating pad, for example.

The panel is tested according to official standards at an independent testing facility, providing protection against:

- impacts
- stabs (e.g., knife)
- handgun-caliber bullets

Size: 25 x 36,5cm

Thickness: 7,2mm

Weight: <450g

The product is manufactured in Finland.

Inquiries related to product features should be directed directly to the manufacturer at info@sioenballistics.fi.

The products are not displayed in our factory showroom, and they are only available through our online store.
