DESCRIPTION

Over the years, Ursuit Easy has become a well-known name among people who spend time on the water – and for 2026 this drysuit is getting even better. The new Ursuit Easy+ brings a more modern look and refined details without compromising the quality, durability, and comfort that Ursuit is known for. Easy+ is the perfect choice for anglers, boaters, and anyone who wants to stay dry and warm in any weather – effortlessly.

The updated Easy+ is an even lighter, more comfortable, and more stylish version of the popular Ursuit Easy dry suit. The straight front zipper makes the suit quick and easy to put on, while the modern two-tone design gives it a fresh and contemporary appearance. The integrated belt, adjustable suspenders, and ergonomic cut ensure a great fit and freedom of movement in all conditions.

The durable and breathable 4-Tex® material keeps water reliably out while allowing moisture to escape from the inside. Neoprene neck and wrist seals feel comfortable against the skin and enhance overall wearing comfort. A waterproof chest pocket protects valuables from moisture, while spacious thigh pockets provide convenient storage for additional gear. Reinforcements on the knees and seat add durability and protection for active use.

Ursuit Easy+ is delivered in a suit bag that includes neoprene gloves, a neoprene hood, and a beanie – ready for your next adventure.
