DESCRIPTION

The jacket and the trousers are designed to give the best mobility and comfort in any situation. The jacket has a big attached hood that gives you the possibility to wear a hat or a cap underneath. The hood can be adjusted to fit perfectly. The pockets on the jacket are big and have splash proof zippers. The Jacket is also equipped with two attached D-rings, one in the neck and one down on the back side. The D-ring in the neck can be used to hang the net from and the other can be used to hang other equipment from. The jacket has one inner pocket that can be closed with a zipper. The sleeves can be tightened against the wrist.

The trousers have an additional layer of protective material on crotch and knees to extend the lifetime. The suspenders are designed in a way so you can remove the pants without removing the jacket. The trousers have four pockets. Two of the pockets are located higher up and are equipped with splash proof zippers. The two other pockets are located lower on the thighs and can be closed with a flap. The trousers have a tightening band at the end of the leg to enable tightening to the boot shaft. The waist part is higher than normal to give better protection against wind. The waist section has a fleece lining to give additional comfort.
