DESCRIPTION

Utö Jacket and trousers

Utö jacket and trousers, named after the southernmost island in Finland, where the conditions are harsh all year round. Designed together with outdoor professionals, for those who head out in any weather. Made of Gore-Tex Pro material to give the best possible performance.

The main distinguish feature on this set is that both the jacket and the trousers have a 100% waterproof main zipper. This means that no water will seep through and come inside the jacket or pants this way.

In the Utö set we use a Gore-Tex Pro material for the best performance. Knees and back are reinforced using a Cordura reinforcement. The pants have a waterproof pocket for mobile phone or car keys. The reinforcements on the shoulders are made from a reflective material for more visibility in darker conditions. Utö is equipped with easy adjustable tightening on the sleeves and zipper adjustable endings on the legs. The hood is adjustable to fit perfectly with any head wear. The pants have tightening on the waist for better fitting. The pants have front attached suspenders for easy removing of pants without undressing the jacket. The pants and the jacket both have two splash proof pockets.

In addition to the standard sizes Utö I also available in made to measure.

Fabric properties: Waterproofness > 10 000 mm, Breathability < 8 RET
